THINK AHEAD – WORSLEY ALUMINA

WHAT'S ON OFFER

Worsley Alumina offers an exciting and challenging environment for graduates focused on a rewarding and successful career in the mining industry. The company manages one of the world's biggest and most efficient alumina refineries.

The Worsley mine, refinery and port operations boast world class training facilities and a structured graduate development program. Graduates are employed from a wide range of disciplines including Engineering, Chemistry, Human Resources, Environmental Science and Commerce. Worsley supports its graduates with broad opportunities for learning and career development.

Graduates are employed on a permanent, full-time basis and benefit from an attractive remuneration package which includes a high level non-contributory superannuation scheme, low interest housing loans, private health cover, novated vehicle leasing options and relocation expenses.

In addition, Worsley offers candidates an enviable lifestyle. The south west region is one of the fastest growing regions in Australia. Its diverse economic base includes mining, agriculture, tourism and commerce. Its cities and towns have a wide range of high quality restaurants, cafes, shops and entertainment.

All of this is within reach of some of the world's best swimming and surfing beaches, top quality wineries and breathtaking old growth forest areas.

GRAD PROFILE
CARL ELLIOTT

Process Control Engineer

As a graduate for the Process Control Team I've had some excellent opportunities that allowed me to develop my knowledge as a technical specialist using state of the art equipment.

My team has placed great value on the benefit of graduate development at a personal level. I have attended several programmes that have targeted my personal development and enhanced my leadership qualities.

Being apart of the Process Control Team at Worsley Alumina has been a fantastic start to my engineering career.
